Four Pillars Negroni Spiced Highly aromatic, rich and spicy gin with great power and intensity, containing botanicals such as Tasmanian pepper berry leaf and cinnamon to name just a few.

Four Pillars Shiraz Aromatically it shows fresh pine needles, citrus and spice, and distinct peppery, dense raspberry notes. The palate is lovely and sweet with a long juniper and spice character on the finish.

GIN

London Dry Gin, despite its name, can be produced anywhere in the world and is what most people think of when they think of gin. Dry gin, means there is nothing artificial added and no added sugar. All flavours are natural from the botanicals. Juniper is the most dominant flavour within the gin, however, most are also steeped with fresh or dried citrus peels before distillation which can give it a bright, citrus flavour. Try one of the below in a classic martini with a simple twist of lemon.

Beefeater 24 UK \$16

Sipsmith London Dry UK \$17

Bombay Sapphire UK \$12

Tanqueray Dry UK \$12

Sloe Gin is made by infusing quality gin with ripe sloe drupes, which are a small fruit relative of the plum and adding a little sugar to extract the juice from the fruit. The result is a liqueur that's tart, but with a delicious richness and depth of flavour.

Monkey 47 Sloe GER \$18

New Western style or **Contemporary** style gins are gins which have a predominant flavour of anything other than Juniper. Although Juniper is always present and legally required to be called a gin, the gin overall may have a character which emphasizes other botanicals. The most common one you might be familiar with is Hendrick's, flavoured with cucumber and rose.
